to Convict the Guilty and Protect the Innocent-Spiritualism.

St. Louis Globe-Democrat Law reports of the sixteenth and seven teenth centuries contain numerous references to supernatural occurrences in court and on the scaffold. One of

She likewise thrust out the ring-, or marriage-finger three times and pulled it in again, and the finger dropped blood on the floor." Naturally enough, such remarkable evi-

dence as this was received with some suspicion by the Court, although the witness, to again quote Sir John Maynard, "was a reverend person, about seventy years of age, as could be guessed. His testimony was delivered gravely and temperately, but to the great admiration of the anditory." Ample con-firmation of an obviously impartial charthe "admiration" changed to horror, so much so that the prisoners were convicted, and two of them suffered death at the hand of the common hangman. Neither of the victims, one of whom was an aged woman, could ever be prevailed upon to confess any complicity in THE RED-BARN MURDER. Of much more recent date was the record of the "Red-Barn Mur-der," remarkable for the fact that the murderer was discover ed through the means of information imparted in a dream. The victim of the murder was a rustic beauty, named petual jealousy among the young men in a village near the English cast coast. Maria's father was a mole-catcher, but the girl was educated beyond the ave-

rage of village maidens. Her first accepted lover was a rich young man named John Corden, who led the girl from the paths of virtue and then abandoned her. A still more wealthy Marten was again led astray, and when

He subsequently left the neighborhood. One night Mrs. Marten dreamt that her daughter had been murdered by Corden, and that the body was interred under the barn. The dream was repeated so frequently that she repeated it to the mole-catcher, who, after many refusals and much ridicule, finally went to the barn, got the grain removed, and commenced to dig at the spot indicated in the dream. The body was immediately discovered and identified. Suspicion, of course, pointed to Corden, who was traced to London, where he had married a schoolmistress and was living on her earnings. He was arrested, convicted, and executed. It is remarkable proof of the truth of this story that Mrs. proof of the truth of this story that Mrs. Marten applied to a justice of the peace for a warrant against Corden three months before she converted her skeptical husband to a belief in her dream.

A DEEAM WARNING, In 1751 an Irish murderer was convicted largely upon dream evidence. A Waterford publican, named Rogers, dreamt one night that he saw a man murder another man on a green spot on the summit of an adjoining mountain. He was able next day to describe both men with perfect accuracy, and did so to many of his friends. One of the men was exceptionally strong, the other weak and puny, but it was the latter who in the vision committed the murder. Rogers persuaded the parish priest to accompany him to the spot, which he found without difficulty, but where there seemed to be no traces Waterford publican, named Rogers, dreamt one night that he saw a man spot, which he found without difficulty, but where there seemed to be no traces of a murder or a struggle. Hence Rogers got rather laughed at. Next day, however, two men entered the saloon, and Mrs. Rogers at once recognized them from her husband's description as the heroes in the vision. Much slarmed, she fetched her husband, who was also certain they were the vision. Much sharmed, she fetched her husband, who was also certain they were the two men.

When the coffin observed a movement of the woman's breast, whereupon one Masson, a tailor, intending only an act of charity, set his foot upon her, and one Orum, a soldier, struck her with the but-end of his musket." But when the doctors came they found life still existed, and proceeded to adopt steps to secure her receded to adop was also certain they were the two men. When they rose to leave Rogers begged the one be expected to be murdered to remain, but without avail. He nearly fainted with fright after the men had left and finally persuaded a neight for to accompany him to the green spot on the hill, where, sure enough, the tragedy of the dream had taken place in reality. The murderer was tracked and caught and Rogers was the principal witness. His recital of his dream was so twid that the prisoner at once confessed, adding that he killed his companion exactly as forefold in the dream. The When they rose to leave Rogers begged the one be expected to be murdered to insomuch that within fourteen hours she actly as foretold in the dream. The weapon used was a knife, and as eight

But fails asicep between each bite.

Each leisure hour serene he basks,

No sybaritic couch be asks, But seeks an equatorial spot, Upturns his face—then life's a blot.
